

Gelumpang Borch
Mahdi Abdullah

Village leader

real to take... into community hall

mental illness - caused by family, social society new care, caused.

before CUMW - would do passing tradition

one patient - would not

take to traditional leader if doesn't help, passing, after tsunami pay started 2005 or work

very valuable to

program. diff style how

we care for un. care more for people. better

families, no one alone now, almost everyone

care for pet. + family

patient have a job. community will give

a job cutting grass

to... DR/day

avoid put
our family

Support group meeting - today's topic is stress

diff topics

Dr. Lily - head of post-grads.

2011 - programming will be used to support

3 CMWS further solidified

3 GPT

enough people but need labor training
buffer. need co + driver, gas (transport)

coders trained by CMWS + team

very early communication -

• CMWS - of 3, 2-6 fun ex. volunteers.

community unit - topic + stress

• saw we had a heart attack, only do activities

• do activities repeatedly. and about 400

maybe 40 people

son like books

2

→ like some vegetables

activities - former, skilled labor, crafts

tax.

village leader - had to make a living

to make a good living, not enough to buy

everything

eating banana

points to wear in green shirt - good work!

gets paid 20k up to cut grass

has a boy w/ mother + grandmother

has mental illness also financed by ^{beating 20k by} Indonesian

soldiers - wanted to talk w/ him.
uncommunicative. so soldier beat him.
2005. had economic difficulties
before soldier hit him had 111 den to
oldest in family.

doesn't talk with anyone. no visitors.
doesn't talk or understand.

his behavior was like his daily activities
it's a hard mental illness.

doesn't like to take medicine, makes him sleepy
has no spirit normally.

M. SALEH - 32 years old. green button down shirt.

MILK DAR - 34 years old. hoarse voice
will respond to team. bright green shirt
jobless.

SYAWAH : 72 Grandmother

SALBIAH ~70

dementia. does activities repeatedly
worries for healthcare. forgetful. thinks longer
way. give her activities to keep occupied, calm.
can't. not as agitated

Chwos - 05/06

4 of them 3 ♀ 1 ♂
once a week in field
daily work.

1:30 because some jobs can't come to post offices
also provide family
common cause - schizophrenia b/c of drugs

describe a typical day
favorite story of a patient family helped
what kind of consulting do they do

village - 4 to 5 patients in a village.
or talked patient at dr depression.
b/w ?? argh! fantastic!

biggest problem is jobs don't want to take drugs
* need long-lasting, inexpensive drugs.
will try to convince them to start starting
